Victor:

It looks like all but 2 of these applications were submitted 12/9 or later. I will be in this week and 12/26-12/28, and 12/31. I will get as many as done as possible but the end of this week will not happen for some.

I still need to discuss the heavy-heavy AECD issue with my management.

Subject: 2008 automotive applications

Greg/Tom:

We have completed the applications for Cummins 2008 Heavy-Duty Engine diesel families. Applications have been submitted to EPA via an e-mail to Application-CI_CERT@epa.gov and submitted to CARB via DMS.

We are looking for EPA and CARB approvals yet this week to prepare for January builds. Please let me know of any problems/concerns.
